Selection Committee
World Bank Group

As a researcher in Cognitive Neuroscience, I specialize in applying a behavioral science lens to understand the deeper motivations, habits, and social norms that drive human decision-making.

In my recent roles as an Academic Coordinator and Neuroscience Mentor at Humai, I have successfully led teams of professionals. I thrive in environments that require interdisciplinary problem-solving. I am confident that my expertise, combined with my leadership skills and critical thinking, will allow me to make a meaningful impact at your team.

I have attached my resume for your review. I would welcome the opportunity to schedule an interview to discuss how my skills and experiences align with your team's current goals.

Sincerely,

Sebastián Mesch Henriques
